

## FOR IMMEDIATE RELEASE

### H-E Parts International Restructures Subsidiaries as Globally Integrated Company

*Operational Unification Allows for Unmatched Agility in Changing Marketplace.*

ATLANTA, GEORGIA, USA – February 12, 2016 – H-E Parts International, a global leader in the manufacturing, servicing and marketing of aftermarket parts and components for mining, crushing and heavy construction equipment, announces the successful restructure of its market-leading subsidiaries into a single, integrated company. The unification creates one agile, customer-focused company able to provide a complete aftermarket parts solution.

“H-E Parts has benefited from an aggressive acquisition strategy,” says Steve McBrayer, CEO of H-E Parts. “We’ve pulled together the most respected companies in the heavy equipment aftermarket business, optimized their individual operations and positioned them for growth as a unified and truly global H-E Parts International.”

As part of creating a more customer-accessible product and service portfolio, the restructure has consolidated our nine subsidiaries under four divisions.

- **Mining Solutions** represents all global mobile mining products and services;
- **Crushing Solutions** is responsible for global crushing equipment, wear products and service operations;
- **Construction Solutions** represents our global non-mining heavy equipment operations;
- **Engine Solutions** will manage global diesel remanufacturing, tuning and service.

Current H-E Parts International support operations will remain in-place with established customer support, distribution and sales relationships strengthened by faster internal communication and greater global logistics insight. Global internet users can now access our entire product and service offering or easily connect with a local office by visiting <http://www.h-parts.com>.

Michael Coffey, COO Americas, H-E Parts says, “The combined H-E Parts International is a reflection of who we are. We are one company, united in its mission to deliver the best innovations and value to our customers.” Ian Olivieri, Managing Director Australia said “The restructure formalizes the integration of our best-in-class product innovations with unparalleled customer service and global access.”

#### **About H-E Parts International**

H-E Parts International has grown to become the largest independent global supplier of aftermarket parts and components serving the mining, heavy construction and energy sectors. H-E Parts is the result of the combination of several highly successful and complementary aftermarket parts and service companies, able to leverage each other’s technologies and customers on a global basis.
